SUMMARY

👋 Hi there! I'm Hari Vigneshwaran, a SaaS (Software as a Service) builder and a Software Consultant with a passion for driving business growth through strategic Marketing and Sales initiatives. I create web and mobile applications and optimize software ecosystems. Let's connect and explore opportunities together!

EXPERIENCE

Full Stack Developer

[CultureMonkey](#) . Full-time

Nov 2022 - Present

Chennai, Tamil Nadu, India.

I'm part of a team of champions 🚀, each of us playing a vital role in our incredible organisation. Together, we're on a mission to build and maintain a rock-solid Go-To-Market (GTM) pipeline. Our specialty? Crafting clever automations that connect Sales and Marketing tools, ensuring a smooth flow of opportunities.

I'm all about the thrill of Research and Development (R&D), where we cook up fresh products and exciting features. One of my proudest achievements? Bringing 'Hummer' to life, a Copilot for Hiring Teams, and taking full charge of its backend.

What sets us apart is our collaborative spirit. Working closely with our visionary founders, we're all idea-brewers, contributing to our journey of success.

Full Stack Developer

[effy](#) . Full-time

Nov 2022 - Present

Chennai, Tamil Nadu, India.

I'm in the business of turning client dreams into reality. My journey always starts with a bit of Sherlock Holmes-ing as I analyze software requirements, and then I roll up my sleeves to craft entire applications that I personally deliver to clients.

But here's the thrilling part: I specialize in creating epic integrations between enterprise tools like Freshworks Business Suite and cool clients like ServiceNow. Think of it as tech magic!

What really gets me going is the client interaction. I'm the "Call Champion" – jumping on calls, understanding their quirks and requirements, sketching out awesome architectural designs, building, delivering, and making sure our customers are over the moon with their tech.

SKILLS

Web Application Development

Rest API Development

Cloud Computing

Mobile Application
Development

Go To Market Operations

PROGRAMMING LANGUAGES

Python (Advanced)

JavaScript (Advanced)

React (Advanced)

Node (Advanced)

Dart (Advanced)

SOFT SKILLS

Creativity.

Problem Solving.

Teamwork Skills.

Communication.

LANGUAGES

English - Professional.

Tamil - Professional.

Kannada - Conversational.

Member Technical Staff

[Zoho](#) . Full-time

Aug 2021 - Nov 2022

Chennai, Tamilnadu, India.

In my role as a Full Stack Developer at Zoho, I took the lead in crafting and owning multiple features for Zoho Sites. I meticulously managed end-to-end processes, from development to testing and deployment.

Engaging with clients assertively through calls and demos, I demonstrated the prowess of our solutions. Collaborating seamlessly with Sales and Customer Support, I drove the platform's growth by delivering enhancements that precisely met user needs.

PROJECTS

Marketo — *An E-commerce application.*

A grocery delivery app for seller and buyer.

Built the entire application using Flutter.

Designed the complete UI.

Handled Google Cloud Platform APIs and Firebase.

Delivered a quality product to the client

CYB-BARD — *A story telling chatbot.(current)*

A chatbot built using Dialog Flow and Django. The story generation is done with GPT2. Used Celery to and Redis for message brokerage.

MUSICAI — *A music generation android app.(current).*

An android application built using Flutter. A Hierarchical RNN model built using tensorflow. Deployed on Cloud ML Engine and implemented in Flutter.

SAMS — *Student Attendance Maintenance System using face recognition.*

A web app built using Django that uses a Tensorflow model for detecting faces .

Buckyron — *A chatbot.*

A chatbot built using Dialog Flow and Django.

EDUCATION

University College of Engineering Tindivanam, Villupuram — *Bachelor of Engineering (Computer Science Engineering)*

Jul 2017 - Present

To be graduated with 7.0 CGPA

Holy Cross Matriculation Higher Secondary School, Salem — *Higher Secondary Course.*

Jun 2015 - Mar 2017

Graduated with 88%.
